PROFESSIONAL SUMMARY

Web Developer with hands-on experience in MERN Stack (MongoDB, Express.js, React.js, Node.js) and MySQL. Completed a 6-month Web Developer Internship at Softpro India Pvt. Ltd., delivering scalable, secure, and high-performance web applications. Strong expertise in RESTful API development, JWT authentication, database design, and responsive UI development. Seeking entry-level/junior roles in Web Development and Backend systems.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Bootstrap
Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, MVC Architecture
Databases: MongoDB, Mongoose, MySQL
Tools: Git, GitHub, Thunder Client, Render, Vercel

PROFESSIONAL EXPERIENCE

Web Developer Intern

Softpro India Private Limited | August 2025 – February 2026

- Developed and maintained full-stack web applications using React.js, Node.js, Express.js, and MongoDB.
- Designed and implemented RESTful APIs, improving backend response and data handling efficiency by 20%.
- Built reusable, responsive UI components, enhancing scalability and maintainability across the platform.
- Worked with MongoDB and Mongoose for schema design, indexing, and optimized database queries.
- Collaborated in an Agile environment using Git/GitHub for version control and team code reviews.

PROJECTS

Softpro Innovation – E-Commerce Website | MERN Stack

- Built a full-stack e-commerce platform for selling electric products including EVs, chargers, and accessories.
- Implemented product listing, cart management, order tracking, and secure user authentication using JWT.
- Designed RESTful APIs for CRUD operations, payment integration, and admin dashboard management.
- Developed a responsive React.js frontend with dynamic filtering, search, and category-based browsing.

Bank-Ledger – Banking Transaction & Payment System | MERN Stack

- Developed a secure banking ledger system for managing transactions, fund transfers, and payment history.
- Implemented double-entry bookkeeping logic with real-time balance updates and detailed transaction logs.
- Built JWT-based authentication with role-based access control for customers and bank administrators.
- Designed MongoDB schemas for accounts, transactions, and audit trails with optimized aggregation queries.

GRS – College Grievance & Complaint Management System | MERN Stack

- Built a student grievance redressal portal enabling students to file, track, and resolve complaints online.
- Implemented multi-role access control for students, faculty, and administrators with separate dashboards.
- Created RESTful APIs for complaint submission, status updates, and automated email notifications.
- Designed a real-time tracking system with status updates: Pending, In Progress, and Resolved.

Other Projects

- Sono Restaurant – Responsive restaurant website using HTML, CSS, Bootstrap & React with card-based UI.
- Portfolio Website – Personal portfolio built with React.js showcasing projects, skills, and resume.
- JavaScript Projects – To-Do App, Weather App (API), Quiz App, Voice to Text & Text to Voice, Music Player.
- UI Clones – Shaadi.com Clone, Spotify Clone, Taj Hotel, Real Internship Website, BNMC Project.

EDUCATION

Bachelor of Computer Applications (BCA)

Veer Bahadur Singh Purvanchal University, Jaunpur, Uttar Pradesh | May 2021 – May 2024
